

Keeping students safe, secure, and ready to learn

We empower school leaders with safety and wellness tools, real-time information, and the technology they need to provide the best quality education to their students. Over 20,000 schools choose Securly to keep over 20 million students safe. Here's how we help educators and administrators support their students:

Student Safety

Ensure student safety on all devices, anywhere they go.

Industry-leading web filtering, educationally appropriate AI, and edtech analytics

Student Wellness

Identify at risk students and respond in real-time.

24/7 student monitoring, human-powered alerts, case management, and real world observations

Teaching & Learning

Ensure students are engaged, so teachers can teach

Powerful classroom management, device management and flex period management

Campus Safety

Campus solutions designed to keep everyone safe.

Market leading digital hall pass solution, and powerful visitor management solution

AI Data Insights

AI generated K-12 data from students online activity.

Generate data sets to measure district outcomes, personalized learning, preventative mental health and more
